

Samhita • Go-To-Market Final Project

Product Strategy & Launch Architecture: Roamly Groups

MARKETING ANCHOR MANTRA

"SECURE YOUR EVENT. EMPOWER YOUR CREW. LET ROAMLY HANDLE THE REST."

Lead Presenter: **Samhita**

Launch Markets: **San Juan (SJU) • Scottsdale (SDL) • Lisbon (LIS)**

Date: **September 26, 2026**

The graphic is a vertical layout for a Go-To-Market deck. At the top right is the Roamly Groups logo with the tagline "BETTER TRIPS TOGETHER". Below the logo, a dark green banner contains the text "SECURE YOUR EVENT. EMPOWER YOUR CREW. LET ROAMLY HANDLE THE REST." and "BETTER TRIPS TOGETHER". The main body is divided into several sections. On the left, a polaroid photo shows a group of five people. Below it, an illustration of a woman with a hat is next to the text "OUR CURATED EXPERIENCES". Further down, an illustration of a man with a hat is next to two smartphone screens showing a "Hold locked!" status and a "Pay" screen with a list of names. Below this, a calendar icon is next to the text "Calendar Liquidity Boost" and a person icon with a checkmark is next to "High Organizer NPS". On the right side, a circular badge says "COMMUNITY-UPVOTED ITINERARIES". Below it, a stopwatch and calendar icon are next to "LOCK PRIVATE DATES | INSTANT 24-HR HOLD". Further down, a credit card icon with a checkmark is next to "ZERO CREDIT RISK | LET US COLLECT PAYMENTS". Below this, an illustration of a group of people is next to "FRICTIONLESS PAYMENT | TRANSPARENT INSTANT SPLITS". At the bottom right, a smartphone screen shows a paper airplane icon, and a small airplane icon is at the very bottom right. A footer at the bottom states: "One organizer creates the group. Everyone transparently votes and pays. Zero personal liability."

ROAMLY GROUPS
BETTER TRIPS TOGETHER

**SECURE YOUR EVENT.
EMPOWER YOUR CREW.
LET ROAMLY HANDLE THE REST.**

BETTER TRIPS TOGETHER

**OUR CURATED
EXPERIENCES**

**COMMUNITY-UPVOTED
ITINERARIES**

LOCK PRIVATE DATES
| INSTANT 24-HR HOLD

ZERO CREDIT RISK
| LET US COLLECT PAYMENTS

FRICTIONLESS PAYMENT
| TRANSPARENT INSTANT SPLITS

Calendar Liquidity Boost

High Organizer NPS

One organizer creates the group. Everyone transparently votes and pays. Zero personal liability.

GTM Strategy: Product-Led Checkout Rescue

Converting high-intent group drop-offs into an organic acquisition loop.

| Motion & Strategic Rationale

- **Motion:** Product-led checkout interception triggered at carts with 4+ guests.
- **Beachhead Segment:** Reluctant Milestone Organizers coordinating 6–10 adult travelers.
- **Strategic Shift:** Streamlining coordination into an automated utility without financial risk.
- **Core Wedge:** 24-hour calendar hold with frictionless mobile guest checkout.

| Executive One-Pager Summary

- **The Bottleneck:** Solitary planners abandon carts rather than floating \$1k+ on personal cards.
- **The Mechanical Fix:** Hold slots for 24h; attendees pay their exact split individually via web link.
- **V1 Guardrails:** Strict 24h expiration, zero app install requirements, no messy in-app chat forums.
- **Target Success Metric:** ≥65% Checkout Completion across pilot destinations.

24-HOUR HOLD LOCK

Reserve peak inventory with zero deposit

ZERO CREDIT RISK

Platform auto-collects from each guest

15S MOBILE SPLITS

No Venmo chasing or mandatory apps

Competitive Intelligence & Strategic Bet

Exploiting incumbent distribution blind spots and execution friction.

■ Battlecard: Airbnb Experiences Vulnerability

- **Incumbent Edge:** Controls lodging chronology; captures travel discovery at zero CAC.
- **Incumbent Flaw:** Walled garden forces single-card checkout and mandatory app signups for all guests.
- **Coordination Friction:** Planners must manually debt-collect via Venmo or risk open slots selling out.
- **Inventory Mismatch:** Saturated with solo/low-cost tours rather than un-fuck-upable private buyouts.

■ The Strategic Bet

"We bet Roamly Groups wins by becoming the default coordination engine for high-stakes centerpiece celebrations—partnering upstream with vacation rental platforms to intercept planners post-lodging, removing personal credit liability, and turning social enforcement into our primary conversion engine."

- **Sacrifice 1:** Collaborative consensus tools (no endless chat/debates).
- **Sacrifice 2:** Low-cost, generic catalog tours (\$30 solo walks).

Positioning Framework & Architecture

Reframing group coordination from administrative overhead to automated utility.

I The Finalized Positioning Statement

For **lead planners coordinating milestone celebrations**, Roamly Groups is a **frictionless group reservation utility** that holds private calendar dates while collecting individual payments. Unlike traditional platforms that force one organizer to front the bill or mandate app downloads, Roamly eliminates personal liability through an open, 15-second guest payment link.

I The From/To Market Shift

- **FROM:** Trip organizers act as unpaid debt collectors, bearing 100% financial liability and tracking manual transfers.
- **TO:** Coordination is an automated utility; organizers lock dates, participants self-settle, and the platform enforces collection.

I The One-Liner Marketing Mantra

"Secure your event. Empower your crew. Let Roamly handle the rest."

Replaces administrative anxiety with structured relief and operational confidence.

Audience Messaging Pillars & Asset

Tailored value-capability-evidence architecture across all three marketplace participants.

Audience	Value Proposition (The Promise)	Capability (The Mechanism)	Evidence (The Receipts)
Organizer	Social leverage & zero financial exposure.	24h Hold Lock + Auto-Split Engine.	Save 4.5h planning time; 0% card float.
Participant	Frictionless, transparent autonomy.	15s Guest Mobile Web Pay (Apple/Google Pay).	<12 min average payment velocity.
Host	Calendar liquidity & guaranteed buyouts.	Auto-cover guarantee + strict 24h release.	<5% slot release rate; +25% AOV lift.

Generated Copy Asset (High-Intent Paid Search Intercept)

"Save 4+ Hours Planning the Celebration. Discover community-upvoted private winery tours and boat charters. Reserve private dates with a 24-hour hold—zero credit card risk and zero Venmo chasing. Roamly Groups."

Hybrid Monetization & Packaging Engine

Zero top-of-funnel friction for organizers; monetization shifted to transaction value.

\$0

Organizer Access

Zero software or upfront fees to lock a 24h hold with credit card pre-auth.

3-5%

Guest Split Fee

Nominal \$5–\$8 processing fee embedded seamlessly at mobile-web checkout.

15%

Host Take-Rate

Marketplace commission deducted only upon guaranteed buyout completion.

Standard Catalog

0% traveler fee

- ✓ Solo & pair public bookings
- ✓ Standard 1-card checkout
- ✓ 15% host take-rate

AOV: \$35–\$60

★ CORE WEDGE (80% VOLUME)

Roamly Groups Buyout

\$0 organizer upfront + 4% split

- ✓ 24-Hour Calendar Hold Lock
- ✓ No-login 15s guest checkout (Apple/Google Pay)
- ✓ Live SMS/WhatsApp payment ledger
- ✓ Community-upvoted itinerary badges

AOV: \$1,000–\$3,500 Headline Events

Concierge VIP

\$99 flat + 18% take-rate

- ✓ Extended 48-Hour hold locks
- ✓ Multi-vendor custom bundling
- ✓ Dedicated itinerary concierge

AOV: \$4,000+ Luxury Villas

VALIDATION RESEARCH

Conjoint Analysis

(N=400): Testing guest checkout velocity against the 3–5% split fee.

Safeguard: If cart abandonment > 5%, pivot immediately to host-absorbed retail pricing.

Strategic Insights & Execution Takeaways

Overcoming friction points and pivoting toward sustainable market differentiation.

| Key Friction Points

- **The "Consensus Trap":** Realizing collaborative voting tools slow checkout; compliance drives conversion.
- **Host Calendar Anxiety:** Overcoming host fear of frozen dates with strict 24h drops and auto-cover backstops.
- **Walled-Garden Temptation:** Resisting forced app signups to maintain a 15-second guest pay flow.

| The Biggest "Aha" Moment

"Airbnb doesn't win on superior curation; they win on chronology."

- Lodging dictates when activities are planned.
- Competing on generic search is a losing CAC battle.
- We must intercept organizers at lodging confirmation.

| Execution Takeaways

- **Clear Sacrifices Define Strategy:** Choosing what *not* to build protects velocity.
- **Incentive Alignment:** De-risking both the organizer (liability) and host (liquidity) creates conversion.
- **Distribution Wedge:** Upstream B2B2C property manager integrations beat direct search ads.

BETTER TRIPS TOGETHER

Turning Group Coordination Into an Acquisition Loop.

"Roamly Groups wins by de-risking high-stakes private celebrations—removing organizer liability, streamlining guest payments, and securing guaranteed buyouts for hosts."

Thank You.
